## About Me

B.S.-level educated Junior Frontend Developer with a progressive 1,5 years of experience in Web Development, motivated achiever with a solid background in JavaScript and its related technologies. Successful implementation of projects with HTML5, CSS, Sass, Bootstrap, Tailwind CSS, JavaScript, jQuery, Angular, React, TypeScript, Node and Java (Spring Boot).

Willing to relocate: Anywhere

---

## Work Experience

**Junior frontend web developer**

*Crypto Money Invest d.o.o.*

December 2020 - June 2022 | Belgrade, Serbia

- Created prototypes in Figma and converted the UI design into an actual user interface of a product, that is both responsive and cross-browser compatible
- Redesigned website pages to be more user-friendly, visually appealing and fully responsive
- Participated in the creation of 3 databases with MySQL, allowing for faster data retrieval and analysis
- Worked on SEO for 5+ websites, optimizing them to rank higher on Google and increasing traffic by 20%.
- Designed and implemented front-end architecture for an email service using Spring Boot.

---
